

## Academics Programs offered by the Aarvy Healthcare Pvt Ltd

We Aarvy Healthcare on behalf of our distinguished faculty and staff, it is my sincere pleasure to welcome you to the Aarvy Healthcare community. You are joining us at a pivotal time of innovation and growth. Our program is designed not just to transmit knowledge, but to inspire curiosity, foster critical thinking, and equip you with the tools necessary to tackle the complex challenges of tomorrow. Whether you are a new student embarking on your academic journey, a prospective faculty member seeking a vibrant research environment, or a returning member of our community, you bring fresh energy and unique perspectives that enrich us all.

We encourage you to engage deeply: explore our cutting-edge research opportunities, participate in student organizations, and collaborate with your peers and mentors. The experiences you cultivate here will shape your future professional path.

### ACADEMICS

**1. Courses/Programs For Doctors:** Aarvy Healthcare offers a diverse range of medical certificate courses and professional development opportunities for healthcare practitioners. At Aarvy Healthcare, we foster both guided and independent learning, providing supervised, hands-on experiences that empower our students to become future-ready doctors and leaders in healthcare transformation.

Our diploma, master's, and fellowship programs are thoughtfully designed and benchmarked against the highest academic and clinical standards, ensuring excellence in education, practice, and patient care.

#### 1.1 DNB PROGRAMS

Aarvy Healthcare is recognized by the **National Board of Examinations (NBE)** to provide **practical training** for students pursuing the **Diplomate of National Board (DNB)** courses in **broad specialties and super-specialties**.

Our DNB training programs in **Gurugram** currently span **three disciplines**, offering comprehensive clinical exposure, mentorship, and hands-on experience to help residents achieve excellence in their chosen fields.

**DNB specialty training** is conducted under the guidance of a highly experienced and distinguished faculty, with extensive expertise. The training strictly adheres to the **guidelines of the National Board of Examinations (NBE)** to ensure academic excellence and clinical competence.

**DNB Seats allocated to Aarvy Healthcare are as follows:**

- A) DNB General Surgery: 02
- B) Diploma in Anaesthesia: 02
- C) Diploma in Radio-Diagnosis: 02

## 2. FELLOWSHIPS and TRAININGS

Aarvy Healthcare offers a diverse range of Online **fellowship programs** and **professional development opportunities** designed for healthcare practitioners seeking to enhance their clinical expertise and advance their careers.

Our fellowship courses combine **comprehensive academic learning, hands-on clinical training, and mentorship from experienced specialists**, ensuring that participants gain the knowledge and skills necessary to deliver high-quality patient care and lead innovation in their respective fields.

### 2.1 Advanced Certificate in Clinical Cardiology

The **Advanced Certificate in Clinical Cardiology** program is designed by leading cardiologists to provide in-depth knowledge and practical skills in the management of common cardiovascular conditions.

This program equips participants with the clinical competence to effectively diagnose and manage **hypertension, stable ischemic heart disease, acute coronary syndromes, heart failure, and cardiac arrhythmias**. Through a blend of academic learning and hands-on clinical exposure, the course prepares healthcare professionals to deliver high-quality cardiac care in diverse clinical settings.

Advanced Certificate in Clinical Cardiology Programs by Medvarsity (offered at Aarvy Healthcare)

#### 1. **One-Year Fellowship in Clinical Cardiology (Post MBBS)**

A comprehensive fellowship that provides advanced training in the diagnosis and management of cardiac disorders, combining clinical exposure, academic learning, and mentorship from experienced cardiologists.

#### 2. **Six-Month Fellowship in 2D Echocardiography (Post MBBS)**

A focused program that trains doctors in performing and interpreting 2D Echocardiography, enabling accurate assessment of cardiac structure and function.

#### 3. **Level I – Certificate in Essentials of Cardiology (Post BAMS/BDS/BHMS)**

An introductory course designed to build foundational understanding of cardiovascular diseases, clinical evaluation, and management principles.

#### 4. **Level II – Advanced Certificate in Clinical Cardiology (Post BAMS/BDS/BHMS)**

An advanced program that deepens knowledge of clinical cardiology and prepares participants to handle complex cardiac cases under supervision.

### 2.2 Fellowship in Emergency Medicine:

Gain the expertise to handle critical medical and surgical emergencies with confidence. This comprehensive program provides **12 months of clinical training** at flagship hospitals, offering hands-on experience in the **Emergency Department, ICU, trauma care, cardiac emergencies, toxicology, and environmental emergencies**.

Enhance your clinical competence and expand your career opportunities with increased potential.

### **2.3 Advance in Fellowship in Intensive Care (AFIC):**

We also offer a comprehensive **2-year Advanced Fellowship in Intensive Care (AFIC)** under the College of Critical Care Medicine, designed for postgraduate students seeking to build a successful career in Critical Care Medicine.

Developed by the **Academic Council of the College of Critical Care Medicine** in collaboration with the **Critical Care Education Foundation**, the fellowship provides advanced clinical knowledge, hands-on training, and immersive learning experiences. The program equips future intensivists to manage complex ICU challenges and meet the highest standards of modern critical care practice.
